Section J-J - Option A: Two box mullion detail

[illegible]

Technical drawing of the front view of a mechanical part, labeled "Fig. 1". The part is symmetrical about a vertical centerline. It features a central vertical section with a wide base and a narrower top section. The base has two large, rounded rectangular cutouts on either side. The top section has two small, rounded rectangular cutouts. The part is secured with four screws (S1000) and four washers (W1000) on the sides. Dimensions are indicated: a total width of 80, a base width of 48, and a top width of 60. A central vertical dimension of 3 is also shown.

The diagram shows a double window with two panes each. Arrows indicate air flow: air enters the top panes from the outside and leaves the bottom panes into the room. A red 'J' symbol is placed at the top of each pane, indicating heat loss from the window.

Option B - Outside view

Option C - Outside view

Section with a cord option

Technical drawing showing a cross-section of a device with a cord option. The drawing includes dimensions and part numbers:

- Overall width: 192
- Overall height: 41
- Height of the main body: 59
- Height of the base: 48.5
- Height of the base from the bottom: 3.5
- Part numbers: AT10017, FO19203, PCS503, PCS504, FO19204, ELI8303, AT10022, 9052802, ELI8304, SUE8001, T1003, 60.
