

CNC Operator

About Us

Based in Donington, near Spalding, we are a long established, friendly and innovative timber framed windows and doors, manufacturing business. Started in 1884 and still owned by the Barnsdale family, we have grown and adapted with changing trends and technology.

About the Role

Main Job Purpose:

- Produce window and door components parts by programming, setting up, and operating a CNC machine.
- Shift work may be required, with the possibility of lone working.

Essential Requirements:

- Setting, running and programming
- Ability to read technical drawings

Desirable Requirements:

- Programme interrogation and troubleshooting
- Conceptual Skills
- Process Improvement
- Verbal Communication
- Functional and Technical Skills
- Controls and Instrumentation
- Tooling, Coordination
- Attention to Detail
- Judgement

Role accountabilities:

- Sort and load PAR timber onto machine and unload finished components onto sorted trollies.
- Verify settings by measuring positions, first-run part, and sample work pieces.
- Maintain specifications by observing sawing, drilling and profiling; taking measurements; detecting malfunctions; troubleshooting processes; adjusting and reprogramming controls; replacing worn tools; adhering to quality assurance procedures and processes.
- Maintain equipment by completing preventive maintenance requirements; following manufacturer's instructions; troubleshooting malfunctions; calling for repairs.
- Maintain continuity among work shifts by documenting and communicating actions, irregularities, and continuing needs.
- Document actions by completing production and quality logs.
- Accomplish organisation goals by accepting ownership for accomplishing new and different requests; exploring opportunities to add value to job accomplishments.
- Observe all safety rules and procedures, ensuring that the work area, equipment and materials are left in a safe state; and that reasonable care is taken for the health and safety of all fellow employees and any other persons within the work area.
- Work in a manner that actively seeks to reduce any negative environmental impact in relation to the processes and procedures operating within their area and across the wider business e.g. reduction of waste, recycling etc.
- Carry out and comply with all company policies, procedures and instructions and any other reasonable duties deemed necessary by the company.
